

**Hill Country Underground Water Conservation District
Permitted Well Application
Non-Community Public Water Supply and
Commercial Well Application**

*508 South Washington * Fredericksburg, Texas 78624
Phone #830.997.4472 * Email: hcuwcd@austin.rr.com
Website: www.hcuwcd.org*

Instructions: This application is used for a permitted well for non-community public water supply and commercial use. Within sixty (60) days after the General Manager has determined the application is administratively complete it will be placed as an agenda item at a board meeting date when the application will be reviewed by the board. Board meeting dates are subject to change.

The application must be completed for the Board to consider at their board meeting. An application fee in the amount of \$1,000.00 and deposit fee in the amount of \$100.00 must also accompany the permit application, however no deposit fee is required if the well has already been drilled. The deposit fee will be refunded to the applicant when all required well information is supplied to the District or if the application is denied both the application fee and deposit fee will be refunded.

Please Complete The Following:

1. Applicant Data: Well Owner _____ **Well Operator _____

A. Name: _____

Representative Name: _____

B. Mailing Address: _____

C. Telephone Number: _____ Alternate Number: _____

** Well operator will need to provide lease agreement with the landowner.

2. General Information

A. State the size of the following areas:

1) The total acreage of contiguous groundwater rights owned or controlled, or if applicable, the total acreage within the service area: _____

2) If applicable, average tract size that will be serviced by the well: _____

3) If applicable, state the total acreage, based on 1/2 acre per connection, outside of the development that will be serviced by the well(s): _____

B. State all presently owned (developed and/or undeveloped) sources of water available for the development: _____

C. State the amount of water that is requested for in this permit: _____

D. State the total number of existing wells used to provide water for the development: _____

E. State or check type on how water usage will be monitored: Timer Meter
Electrical Use
 Other: _____

F. State the actual or anticipated pump size: _____

G. State the actual or anticipated rate of withdrawal: _____

3. Well Location Information:

A. Property Address or general direction and description of the location of existing or proposed well(s): _____

B. Location and use of produced water: _____

C. Attach a map or plat drawn on a scale that adequately details the proposed project and show the actual or anticipated location of the existing or proposed well(s). Show the exact boundaries of property.

Distance from all property lines to well: _____

Actual Pumping Capacity Of Well	Minimum Distance From Existing Permitted Wells and Between Proposed Permitted Wells	Distance From Property Line
Less than 17.36 gpm	150 feet	100 feet
17.36-200 gpm	300 feet	100 feet
200-400 gpm	750 feet	200 feet
400-800 gpm	1200 feet	400 feet
>800 gpm	1500 feet	400 feet

NOTE: The minimum spacing distances are doubled when drilling the well within a High Historical Groundwater Use Area, a High Historical Groundwater Use Buffer Zone, or a Critical Groundwater Depletion Area.

4. Location of Adjacent Permitted Wells:

Attach a map or plat drawn on a scale that adequately identifies all permitted wells within a one-mile radius of the proposed or existing well and the distance to the proposed or existing well.

5. Water Conservation Plan:

If applicable, the current per capita water demand _____ gal/day. (Per capita total = total population/total demand)

Attach any adopted water conservation and drought management plans along with what water conservation goals permittee has established, and what measures and time frames are necessary to achieve the permittee's established water conservation goals. Complete the attached Water Conservation Plan Assessment.

6. Texas Commission On Environmental Quality (TCEQ):

If applicable have the system engineering plans been submitted to TCEQ?
 yes no

If yes, has approval been received? yes no

If no, estimate time when approval will be received: _____

7. Other:

The District shall determine whether the application, maps, and other materials comply with requirements of this rule. The District may require amendment of the application, maps, or other materials to achieve necessary compliance.

The permit to drill a well is valid for 6 months only from date of approval. Permits to drill a well may be extended upon reasonable cause for an additional six months after which time the application process must be re-initiated.

I, the undersigned applicant hereby certify that I have read the foregoing statements and, to the best of my knowledge and belief, all data therein contained are true and correct and complies with all District Rules.
