

**HILL COUNTRY UNDERGROUND WATER CONSERVATION DISTRICT**

**MANAGEMENT PLAN**

*Adopted June 11, 2013*

**TABLE OF CONTENT**

District Mission ..... 1  
Purpose of Management Plan..... 1  
Technical District Information Required by Texas Administrative Code ..... 2  
Methodology to Tract District Progress in Achieving Management Goals ..... 4  
Actions, Procedures, Performance and Avoidance for District Implementation of  
Management Plan ..... 4  
Management Goals..... 5

Appendix A

TWDB Report - Projected Water Management Strategies TWDB State Water Plan  
2012 Hill Country Underground Water Conservation District

*Amount of Groundwater Being Used within the District on an Annual Basis* ..... 11, 12  
*Projected Surface Water Supply within the District* ..... 13  
*Projected Total Demand for Water within the District*..... 14  
*Projected Water Supply Needs within the District*..... 15  
*Projected Water Management*..... 15, 16

Appendix B

TWDB Report - GAM Run 12-015: Hill Country Underground Water Conservation District  
District Management Plan

*Annual Amount of Recharge From Precipitation to the Groundwater Resources  
within the District*  
*Edwards-Trinity Plateau (Edwards)*..... 24  
*Trinity (Hensel)*..... 26  
*Annual Volume of Water that Discharges from the Aquifer to Springs and  
Surface Water Bodies*  
*Edwards-Trinity Plateau (Edwards)*..... 24  
*Trinity (Hensel)*..... 26  
*Estimate of the Annual Volume of Flow into the District, out of the District, and  
Between Aquifers in the District*  
*Edwards-Trinity Plateau (Edwards)*..... 24  
*Trinity (Hensel)*..... 26

Appendix C

TWDB Report – GTA Aquifer Assessment 08-08: Ellenburger-San Saba Aquifers

*Annual Amount of Recharge From Precipitation to the Groundwater Resources  
within the District*  
*Ellenburger-San Saba* ..... 32  
*Estimate of the Annual Volume of Flow into the District, out of the District, and*

*Between Aquifers in the District*

*Ellenburger-San Saba – Not applicable, No GAM available*

Appendix D

TWDB Report – GTA Aquifer Assessment 08-07: Hickory Aquifer

*Annual Amount of Recharge From Precipitation to the Groundwater Resources  
within the District*

*Hickory.....46*

*Estimate of the Annual Volume of Flow into the District, out of the District, and  
Between Aquifers in the District*

*Hickory – Not applicable, No GAM available*
